EUROPEAN STYLE
IN AUSTRALIA

Geberit's innovative button designs and concealed cistern technology has allowed users throughout the world to experience the luxury of well-designed modern bathrooms.

With experience spanning 60 years, Geberit has developed an eye for premium button designs and precision Swiss manufacturing.

This has led to the installation of millions concealed cisterns worldwide.

Geberit offers an impressive 15-year warranty on cistern tanks and frames as well as 50-year spare parts availability* for ultimate peace of mind and long term security.

PRECISION SWISS ENGINEERING

Outstanding product quality is only achieved with a team of Geberit engineers and designers who have a passion for innovative function and design.

Precision Swiss engineering and outstanding manufacturing combine to deliver peace of mind behind the wall and design freedom at the front of the wall.

To ensure its carbon footprint is responsible, Geberit puts the environment at the heart of its business by focusing on sustainable sourcing, manufacturing, logistics and product design that delivers a harmonious synergy with nature.

Award-winning European product designer Christoph Behling has a history of creating timeless flush button designs for Geberit.

* 25 years for Alpha, 50 years for Sigma

GEBERIT

THE PERFECT BALANCE.
DESIGN MEETS FUNCTION

We use our passion for design and technology to inspire and excite people all over the world. By applying our vast Know-How and 150 years of experience, we ensure our products are not just beautiful to look at, but truly make life easier and more comfortable.

Responsibly made from fine and durable materials, Geberit products are a perfect balance of elegant design and outstanding function. They are easy to clean, easy to use and increase comfort.

Design Meets Function is the name given to this fusion of outstanding functionality with aesthetic design for the entire bathroom.

DESIGN

OUR
APPROACH

Water is fundamental for nutrition, hygiene and cleaning, and as a means of transportation. Our durable, innovative and resource-saving sanitary products make a key contribution towards meeting these basic needs. We have been a reliable partner for over 150 years. Our expertise is based on a comprehensive understanding of how water flows and how it can be used safely and efficiently. In this way, we continuously refine our products and set new standards in order to make the everyday lives of people better.

OUR KEY
FOCUS

To date, more than 200 Geberit products have been developed or optimised in line with the eco-design principle. The goal: each product must be better than its predecessor from an ecological perspective, without compromising on quality, functionality or durability.

Geberit has been awarded the EcoVadis Gold Medal in recognition of its best-in-class sustainability management.
This places the company among the top 5% of over 125,000 companies assessed globally across all industries and reinforces its position as a sustainability leader in the sanitary industry.

Green Building Council Australia

Geberit has been a supporter of the Green Building Council of Australia since 2021. We are also a proud sponsor of The Future Homes Program.

UP TO
50 YEARS
SPARE PARTS AVAILABILITY

QUALITY GUARANTEED
Geberit offers an impressive 15-year warranty on cistern tanks and frames. Our one-piece blow-moulded, high-density polyethylene (HDPE) tank ensures that the cistern is permanently leakproof. It can also be easily accessed at any time, simply remove the flush buttons for quick and easy maintenance.

PRODUCT CONFIDENCE
Geberit offers up to 50 years spare part availability* for working parts within Geberit concealed cisterns and flush buttons.

This gives new construction or renovation projects the safety and security of parts availability for years to come.

Additionally, newly developed products and components are often backwards-compatible.

THOROUGHLY TESTED
In the endurance testing labs, cisterns, filling valves, flush buttons and taps are subjected to computer-controlled lifecycle testing.

Geberit concealed cisterns are simultaneously evaluated at a rate of at least 200,000 flushes per cistern.

The results of short and long-term testing serve as a guideline for production release and country-specific approvals.

* 25 years for Alpha, 50 years for Sigma

DUOFIX FRAME
WALL HUNG SOLUTIONS

VERY STRONG
No wobbling or vibrations - strength tested to bear a weight of up to 400kg

DURABLE
Installed millions in the past 60 years, Geberit concealed cisterns and flush buttons represent the ultimate tried and tested solution.

MORE HYGIENIC
No pedestal and no cistern in front of the wall means no exposed pipework for dirt and bacteria to hide.

LEAK-PROOF
Every Geberit cistern is made from a single piece blow moulded HDPE and individually tested to guarantee water tightness.

SIMPLE MAINTENANCE
Simply remove the flush buttons for access to all important parts. Geberit stock spare parts for 50 years.

For further information visit
www.geberit.com.au

Geberit Concealed Cisterns

DISCOVER THE
NEW DUOFIX

FOR ANY INSTALLATION SITUATION

1 **PULL-OUT SIDE FASTENING PLATE**

Pull-out side fastening on the upper frame end for mounting on vertical studs for room-height applications.

2 **ALTERNATE POSITION FOR WALL ANCHORS**

An additional fastening hole for wall anchors to adjust their position to suit the structural conditions, e.g. in the case of obstacles or cables behind the wall.

3 **SUITABLE FOR 25 CM HIGH FLOOR CONSTRUCTION**

Extendible leg supports with a larger adjustable range for floor constructions up to 25 cm.

4 **CLEVER FOOT PLATE DESIGN**

Thanks to a hollow space, the foot plate can also be mounted above the fastening screws on the floor profile without the screw head getting in the way.

OPTIMISED HYDRAULICS

5 **HIGH PERFORMANCE FLUSH VALVE**

The Geberit flush valve delivers reliable performance and easy maintenance in concealed cisterns, backed by decades of proven durability.

6 **QUIET INLET VALVE**

The Type 383 inlet valve ensures consistent, quick filling with minimal noise emissions.

EASY HANDLING

7 **ADDITIONAL MARKINGS**

Markings on the blue frame make measuring easier for the centre of the threaded rod and middle of the connection bend.

8 **SCREWS WITH HEXALOBULAR SOCKET**

Screws with an additional hexalobular socket (TX) offer an additional choice of tool when working with a cordless screwdriver.

9 **SIMPLE ADJUSTABLE PIPE BRACKET**

The pipe bracket can be easily adjusted to suit the position of connection bend by sliding to ensure tension-free installation of the connection bend.

CO_2 REDUCTION

Thanks to a sophisticated design, the deployment of less material and the use of green electricity in production, each new Duofix element for wall-hung toilets results 10% fewer CO_2 emissions compared to its predecessor.

SIGMA
IN-WALL CONCEALED CISTERNS

Suitable for traditional in-wall installations allowing design freedom to create a lifestyle bathroom. All Sigma buttons are compatible with Sigma concealed cisterns.

ALPHA12
UNDER COUNTER
CONCEALED CISTERNS

Giving smaller bathrooms the appearance of space with a choice of flexible low height installation options, including under counter, vanity or window. All Alpha buttons are compatible with Alpha12 under counter concealed cisterns.

REMOTELY LOCATED
CONCEALED CISTERNS

Allowing for complete design freedom to create a modern bathroom by placing the button up to 2 metres from the concealed cistern. Suitable for in-ceiling, under counter, in vanity, in-duct, and in-wall installations.
